West Tamar Council

General Information on the West Tamar Area

West Tamar Council welcomes you to the West Tamar and congratulates you on your choice of place to live. We hope that you enjoy our beautiful part of the world.

Council's Vision Statement
An active and effective community enhancing West Tamar as the desired place to live, work and visit.

West Tamar Municipal Area includes the western side of the Tamar River from the surburban area of Riverside in Launceston, extending north to Bass Strait and as far west as Frankford.

West Tamar Council was inaugurated on the 2nd April 1993 and is responsible for 689 square kilometres and 450 kilometres of road network. Council's offices are in Riverside, Exeter and Beaconsfield.

The major industries are tourism, retailing, agriculture, fishing, world class vineyards and first class maritime education facilities.

The valley has various natural attractions, including the Narawntapu National Park, Notley Fern Gorge, Tamar Island Wetlands and the Tamar River. The valley has an abundance of historic attractions and points of interest associated with the foundation of Tasmania, in particular, the York Town settlement and the Beaconsfield Mine and Heritage Centre.

The Tamar River estuary and its tributaries are home to an abundance of birdlife and, combined with its beautiful landscape, make West Tamar a peaceful and idyllic residential and rural setting.

Waste Collection

Garbage and Recycling Calendar

Use the recycling calendar below to keep up to date on collection times in your area.

Wheelie Bins

Council's contractor can only empty wheelie bins issued by West Tamar Council and identified with council's logo. Each property has been issued with a wheelie bin and it should remain at the property on change of ownership. Each bin is marked with a unique identifying serial number, which is recorded by council.

When placing a wheelie bin out for collection, please make sure that:

- the wheels are facing away from the road
- it is on level ground and one metre away from any other wheelie bin
- the wheelie bin is away from trees, power poles and any obstructions that would prevent the mechanical arm being able to grab the bin
- the lid is fully shut on the bin
- there are no items placed on top of the lid.

In some small cul-de-sacs it may be necessary to place the bins together at the entrance to the cul-de-sac where the road is usually a bit straighter, as the mechanical arm may not be able to reach bins placed on the curved parts of the kerb.

Items that **should not** be placed in a wheelie bin include:

- hot ashes
- unwrapped vacuum cleaner dust
- liquids
- syringes
- oils
- paints and solvents
- timber and building materials
- green waste
- recyclable materials (see below)

Replacement Bin

Councils will generally replace bins when a person has genuinely lost a bin or had it stolen or damaged. The property owner may be required to produce a declaration regarding the loss of the bin.

The bins should only be used for garbage collection and the collection of recyclables and are not issued for use as general household storage containers.

If you move house, the bins should not be taken with you.

Annual Special Rubbish Collection

West Tamar Council runs an annual kerbside collection of items too large for the normal kerbside collection service. These include such items as furniture, household appliances, junk and small amounts of building materials.

The amount of items per household should not exceed 1.5 cubic metres. Items for collection should be able to be safely lifted and placed on a truck by two people.

Items that will not be collected are refrigerators, freezers, tyres, tree branches, broken glass, rotting material, liquids, chemicals or trade waste. For further information about collection times and dates contact council's Waste Management Officer on Ph: 6323 9300.
